INVESTMENT THESIS

Lantern AI aims to revolutionize SMB hiring processes by leveraging AI to align hiring decisions with a company's unique definition of exceptional talent, potentially reducing time-to-hire and improving candidate quality [1].

TEAM Team size is reported to be 4 members, with no further details on execution evidence [1].	PRODUCT The product is an AI Hiring Manager that calibrates to a company's hiring standards, provides talent intelligence, and executes the hiring loop from sourcing to offers [1].
MARKET The market is B2B HR, specifically targeting SMBs looking to optimize their hiring processes. Distribution motion is not explicitly detailed [1].	WHY NOW The rise of AI in HR processes and the increasing complexity of talent acquisition in a competitive market make now an opportune time for such a solution [1].

DIMENSION SCORE BREAKDOWN

Workflow Pain 8/10 / 25% wt	Speed To Value 7/10 / 20% wt	Compounding Advantage 6/10 / 20% wt	Team Execution 5/10 / 15% wt	Market Distribution 6/10 / 20% wt
---------------------------------------	--	---	--	---

KEY RISKS - The small team size may limit the company's ability to scale quickly [1].	WHAT CHANGES OUR MIND - Evidence of significant customer traction or partnerships would be compelling. - Demonstrated improvements in hiring metrics for early customers.
