---	-------------------------------------	--	------------------

INVESTMENT THESIS

Enact aims to enhance robotics models by generating targeted data, potentially reducing the cost and improving the reliability of robotics implementations in SMBs [1].

TEAM	PRODUCT
Reported team size is 2, which may limit execution capacity [1].	Enact generates targeted datasets to improve robotics models, which could address a significant pain point in robotics deployment [1].
MARKET	WHY NOW
The market and ICP are not clearly defined in the provided evidence [1].	Not disclosed. [1]

DIMENSION SCORE BREAKDOWN

Workflow Pain 8/10 / 25% wt	Speed To Value 6/10 / 20% wt	Compounding Advantage 4/10 / 20% wt	Team Execution 3/10 / 15% wt	Market Distribution 2/10 / 20% wt
---------------------------------------	--	---	--	---

KEY RISKS	WHAT CHANGES OUR MIND
- Small team size may hinder rapid development and scaling [1].	- Evidence of successful deployments and customer testimonials. - Clear definition of market size and ICP.

TOP SOURCES

#	TRUST	SOURCE	SUPPORTING EVIDENCE
[1]	VERIFIED	YC profile: Enact	Official Registry: The post-training layer for robotics. Enact generates the data that makes robotics models reliable in the real world.
[2]	CLAIMED	Enact	Company Website: We launched Enact on X■ The post-training layer for physical AI. Enact generates the data that makes robotics models useful in the real world.
