INVESTMENT THESIS

Riften aims to provide 'earned intelligence' for companies by routing AI requests to the most cost-effective models and gradually transitioning to private, company-controlled models, thereby reducing costs and increasing ownership of intelligence [1].

TEAM	PRODUCT
Not disclosed [1]	Riften's product is an AI traffic gateway that routes requests to the lowest-cost models and gradually builds private models for companies, aiming to reduce costs and increase intelligence ownership [1].
MARKET	WHY NOW
The market for cost-effective AI solutions in SMBs is potentially large, but specific ICP clarity and distribution motion are not detailed [1].	The increasing cost of renting AI intelligence and the trend towards owning and controlling intelligence assets make Riften's proposition timely [1].

DIMENSION SCORE BREAKDOWN

Workflow Pain 8/10 / 25% wt	Speed To Value 6/10 / 20% wt	Compounding Advantage 7/10 / 20% wt	Team Execution 3/10 / 15% wt	Market Distribution 5/10 / 20% wt
--------------------------------	---------------------------------	--	---------------------------------	--------------------------------------

KEY RISKS	WHAT CHANGES OUR MIND
- Lack of disclosed team and traction metrics could indicate early-stage risks [1].	- Disclosure of team credentials and customer traction metrics [1] - Evidence of significant cost savings and adoption by early customers [1]
